

Removing the Address Book from the handheld phone. Revised 2/15/07.

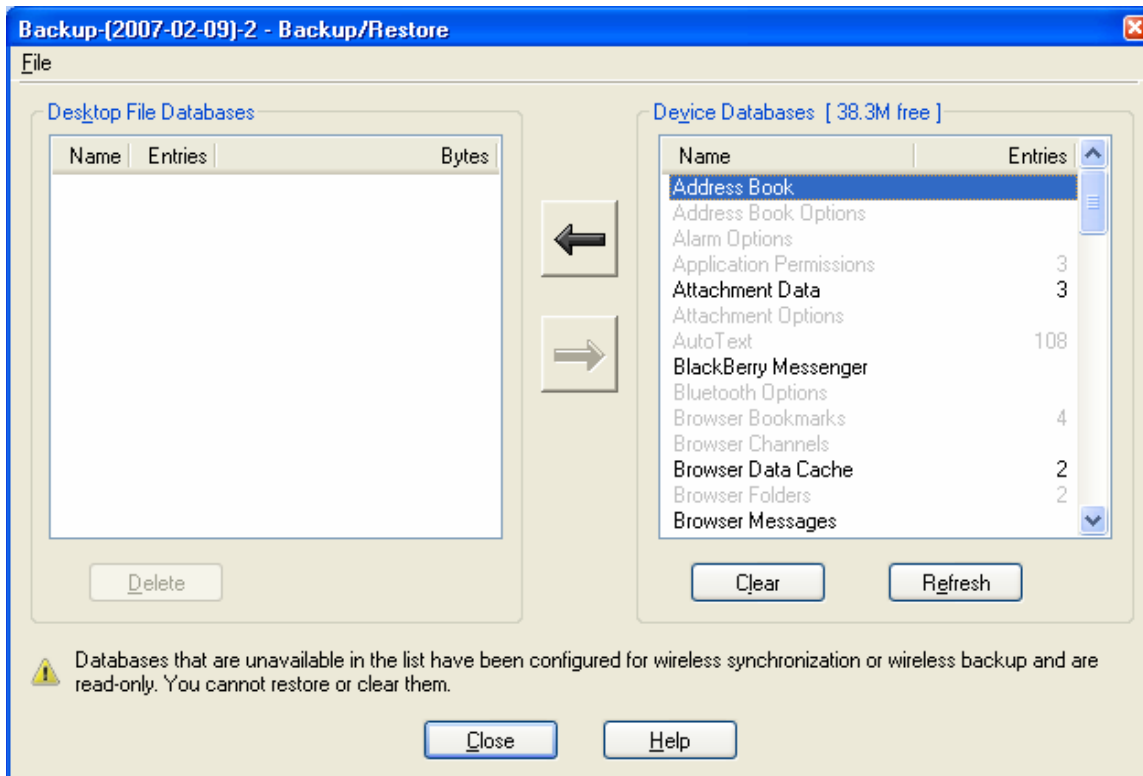

Make sure that your phone is connected to the PC and is turned on. Open your **BlackBerry Desktop Manager** program and double-click the **Backup and Restore** icon.

The backup and restore utility will appear, click **Advanced...** to continue.

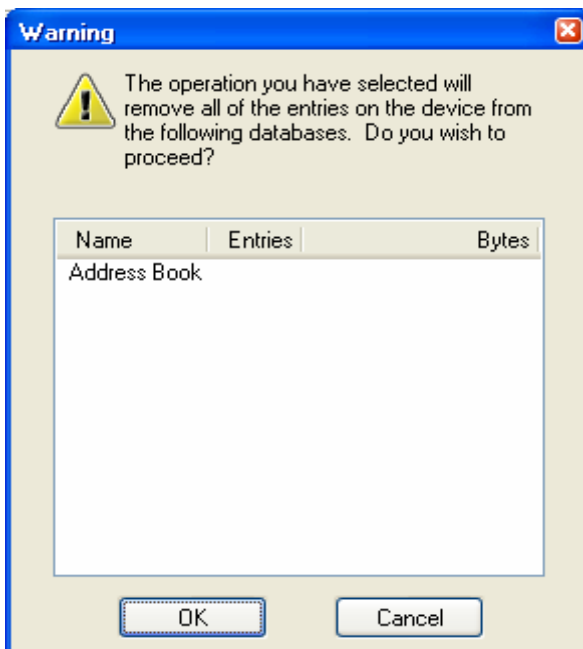

The dialog window below will come up

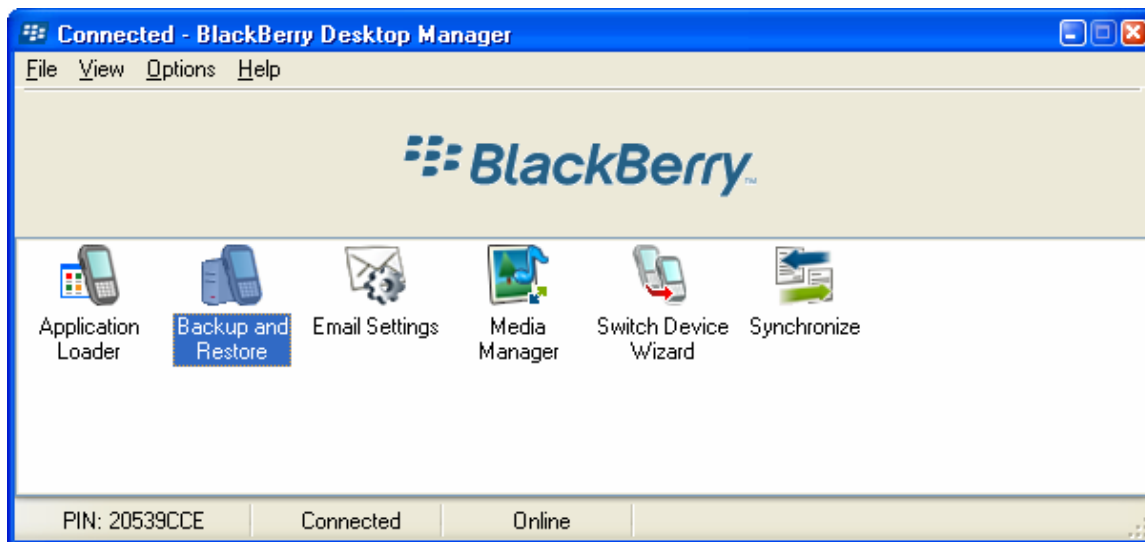

High light **ONLY** the **Address Book** on the upper right hand-side panel and click the **Clear** button to delete the entries. All other entries on your phone will remain.

This dialog window below will appear, click **OK** to continue.

When you have deleted the Address Book from phone, **Close** the backup and restore dialog windows to go back to BlackBerry Desktop Manager.

Close the BlackBerry Desktop Manager and disconnect the handheld from the USB cable when done.
