Possesses clerical office experience for the medical industry in accounting, accounts payable and accounts receivable. Served as a versatile accounting clerk within different departments requiring the use and knowledge of newly updated software.

- Investigated and improved access to purchase order information from several weeks to same day through learning newly implemented software.
- Undertook the responsibility of learning an entirely new software package, increasing data entry by 35% more than the original data entry process.
- Participated in updating all unpaid bills (due to a transition phase in software) that dated back from 2003 for more than 5,600 vendors.

A self-motivated accounting clerk who knows how to efficiently work with data entry, A/R deposits, spreadsheets, coversheets and general A/P expenses and invoices.

ACCOMPLISHMENTS

- Participated in the reconciliation process that was backed by up to six months of unbalanced bank statements.
- Updated and printed reports of outstanding, unreconciled, system and manual checks.
- Solved and researched for “homes” of unknown checks from insurance or patients deposited into company account through accounts receivable.
