A highly skilled radiological technologist with extensive experience in mammography, CAT scan and diagnostic radiography for the largest medical center on the West Coast.

A reliable, punctual, hard working and trustworthy healthcare professional seeking a new radiological technologist position.

EXPERIENCE

Palms Medical Center, Beverly Hills, California

1997-Present

Senior Radiological Technologist

Took radiographs of more than 30 patients per day for ten years in a 400-bed, acute-care, level I trauma center.

- Became proficient in mammography and needle localizations, CAT scan and diagnostic radiographs.
- Assisted radiologists, interns and residents by preparing patients for radiological procedures, operating radiographic equipment and film development.
- Substituted for the Supervisor during his absence.
- Prepared schedules for 100 patients per shift and maintained records for radiological procedures.
- Trained more than 45 new technologists in policies, procedures, use of equipment, developing films, record keeping and medical center orientation.
- Participated on a "Pride in Performance" evaluation team that suggested work improvement ideas for management.
- Provided radiology services to the entire medical staff.
- Received commendations for perfect attendance and work above and beyond the call of duty.

EDUCATION

University of California, San Diego, San Diego, California
